About Me

If I described myself in one word, I would say that I'm multipotentialite. I produce music, do sketches, skate, learn to play guitar and keys and many more... Fun fact: I love water more than tea, coffee, and soda. I dream of a cool internship and a dog (hope to get at least one of them here ☺) And finally, I'm like TCP, a little shy, but once hands are shaken, I'm in conversation :)
